GOOD DAY FOR BEARS | MILL CREEK SENDS IN THE WHEAT PIT

ens Market in Spite of Bullish News.

CHICAGO, Sept. 25 .- Heavy selling by local longs caused a weak wheat market here today. At the close wheat for December delivery was down 1 cent. Corn was ic higher. Oats were off ic. Pro-visions were unchanged to 5c higher.

Sentiment in the wheat pit was bearish all day despite a fair amount of bullish news. The most important influence for higher prices was a higher market at Liverpool. The strength of corn on the local exchange also aided the bulls somewhat. During the early part of the day prices showed but little change, but as the session advanced several large local holders soid freely, and brought about material declines in all deliveries.

local holders sold freely, and brought about material declines in all deliverles.

News from the Canadian Northwest was meager, but a number of advices were received from Minnesota and the Dakotas claiming that threshing returns are showing large yields in fields which were supposed to have been seriously damaged by frost. The market closed weak and near the lowest point of the day. December closed at 991@994c.

Corn opened strong because of frosts last night in various sections of the corn belt. The market held strong until the close. December closed at 553c.

Oats were weak because of heavy liquidation, the weakness of wheat and a belief that the Northwestern crops will be larger than has been estimated. The close was weak and at the lowest point. December closed at 515c.

The provisions market was firm early in the day because of the advance in corn and higher prices for live hogs. Later the market eased off on realizing. Final quotations for January pork were 5c higher at \$15.35; lard was unchanged at \$5.75, and ribs at \$7.575.

IN LARGE PEACHES

to Offer to the Housewife.

The first installments of the Utah peach crop were received Wednesday morning from Mill Creek. They are called the "Heath Kling" and sre intended for pickling and cooking purposes. Large in size and with bright red cheeks, they make a most attractive appearance on the stands. Woe unto him, however, who attracted by their beautiful appearance attempts to test their qualities for cating. They are hard and tough, but that, after all, is just the thing desired in fruit for preserves. Peaches will follow in the footsteps of all fruit this fall and wax high in price and small in quantity. These first arrivals cost \$1 and \$1.25 a bushel. Cantaloupes and tomatoes are still exhibited, the latter in large quantities. Both of these fruits will last until a good haevy frost kills the vines. Up to the present time the tomatoes have been sent in from the region north of the city, especially from the locality about Bountiful. Yesterday the first shipments were received from the south. It is a handsome fruit, too, although it sells for \$1.10 a bushels. rult, too, although it sells for \$1.10 a
